STOREX

The STOREX D-10H IP camera is ideal for the video surveillance of your home, shop or office. With three different uses, this camera will be able to adapt to all of your needs.

STOREX CLOUD SERVER

### Advantages of using STOREX's online storage service:

- > Whenever movement is detected by a camera, you will receive - directly on your SmartPhone - a warning notice with a photo and a video link.
- > All your videos will be automatically and securely stored on the STOREX's server.
- > All files are stored for 30 days (legal period).

All files can be accessed easily and intuitively by date or event.
