## SECURITY INFORMATION

This appliance was designed and manufactured to ensure your safety. The security mechanisms incorporated in the product will protect you if you observe the following procedures for installation, use and troubleshooting: read carefully the following instructions and observe them before handling and installing your hardware. Save these instructions so that you can refer to later.

Some people are susceptible to seizures or have loss of consciousness at the sight of certain kinds of flashing lights or frequent elements in our environment. Those people are exposed to attacks when they watch certain images or playing certain video games.

These phenomena may occur even though the subject has no established medical history or has never been confronted with an epileptic seizure. If you have already submitted symptoms related to epilepsy (seizures or loss of consciousness) in the presence of light stimulations, consult your doctor.

## GENERALITIES

Do not shake the product under penalty of damaging it.  
Use only parts and accessories (power supply...) specified by the manufacturer.  
The illustrations of the product may vary from the actual product.

## SECURITY

To avoid fire or electric shock, do not place the appliance near objects filled with liquid. If a heavy object or liquid should fall on the device, have it checked by qualified personnel before using it again.  
In operation, the surface of the housing gives off heat; therefore, do not cover it or put an object on it.

## POWER SUPPLY

The supplied power adapter is specific to the product. The use of a different adapter may damage the product or cause accidents.

## PRODUCT LOCATION

Install the unit away from any equipment to strong attraction such as microwave, large speakers...

## CLEANING

Never open the product to clean otherwise will void the warranty.  
Unplug the product from the wall outlet before cleaning the product.  
Clean the outside of the product with a soft, dry cloth. Never use abrasive cloth, scouring powder or solvent such as alcohol or gasoline.

## TROUBLESHOOTING

Refer all servicing to qualified personnel. Troubleshooting is necessary if the appliance has been damaged in any way: plug or power cord damaged, liquid spilled on the product, introduction of small objects in the product, exposure to rain or moisture, malfunctions, dropping the product...

## IMPORTANT HINT

At full volume, listening to the player for an extended period of time can damage your hearing.  
It is illegal to download music from Internet without buying the rights to do so. STOREX is not responsible for the use of illegally downloaded music.

## SECURITY – ENVIRONMENT

Your STOREX product has been tested in the laboratory; It is complies with the European directives for CE marking in force at the time of its marketing.

Traceability of the components of your STOREX product has carried out; she showed us the conformity of the product with environmental directive (ROHS) in force at the time of its marketing.

At the end of life, do not dispose in the garbage but bring to your site who will move the product in a chain of electrical, electromechanical and electronic waste (WEEE) recycling.

**Children:** Be very careful with the children.

A mobile phone contains many spare parts, therefore to be very alert when a child is in contact with a cell phone. The product contains small parts that can be ingested or cause choking if swallowed. Your device is equipped with a camera or a lighting device, do not use it too close to the eyes of children or animals.

**Audition:** At full power, listening to extended periods through headphones or earphones can damage your hearing. Be sure to reduce the volume to the minimum necessary when you listen to music or a conversation. Avoid high sound volumes for long periods.

**Driving:** Caution when driving. Driving requires extreme and regular attention to minimize the risk of accidents. Using a mobile phone can distract the user and lead to an accident. It comes to scrupulously respect the legislation and local regulations in force relating to the restrictions on use of cordless driving. It is therefore forbidden to phone while driving and the use of a hands-free kit cannot be considered a solution.

**Plane:** Turn off your phone in the airplane. Remember to turn off your phone when you are in an airplane (GSM + Bluetooth). This can cause interference.

## MAIN FEATURES

<b>SAR* per 10g (W/Kg)</b>		<b>Standby mode</b>	<b>Communication</b>
<b>DC35G</b>	<b>0,068</b>	<b>160h</b>	<b>10h</b>
<b>DC40G</b>	<b>0,063</b>	<b>150h</b>	<b>9h</b>
<b>DC50G</b>	<b>0,19</b>	<b>150h</b>	<b>8h</b>
<b>QC50</b>	<b>0,138</b>	<b>130h</b>	<b>8h</b>
<b>QC50+</b>	<b>0,768</b>	<b>120h</b>	<b>8h</b>

**\* SAR (Specific Absorption Rate) mobile phones quantifies the maximum exposure level of the user to electromagnetic waves, at the ear. The European legislation requires that the SAR does not exceed 2W/kg.**

## PREPARING YOUR SMARTPHONE

### INSERTING THE SIM CARD

The back cover of the phone is set with clips, please loosen using the notch in the hull and following the contour of the phone. Insert the SIM card(s) according to the diagrams below.

### INSERTING THE SD CARD

Insert the micro SD card to the location indicated by the symbol . Careful to respect the direction of insertion of the micro SD card. Golden paws should be turned down.

### **INSERTING THE BATTERY**

Insert the battery according to the diagram below. Careful to observe the direction of battery polarization (+ and -) compared to what is indicated on your smartphone.

### **CHARGING THE BATTERY**

Your phone is powered by a rechargeable battery.

When the LED is flashing red, this indicates that the battery charge is very low, please charge the battery, a low charge level may reduce the life expectancy of your phone. Plug the charger that comes with the phone to a power outlet and the micro USB tip to the USB port on the phone.

The phone status light changes to red, indicating that he is in charge.

Once charging is completed, the status led turns green. You can disconnect the phone from the charger.

### **TURN ON/OFF THE SMARTPHONE**

To turn on the phone, press the button **On/Off** for a long time until the phone turns on.

If your **SIM** card is locked, you will need to enter the correct **PIN** code to unlock the **SIM** card when the phone is powered.

After three bad seizures of the **PIN** code, the smartphone locks automatically. You need to unlock it using your **PUK** code (supplied with the **SIM** card, if this is not the case, contact your operator).

To switch the phone off, press hold the **On/Off** button until the menu opens, press the option "**Power off**". Then press **OK** to confirm.

The smartphone vibrate a bit when it's completely turned off.

## SMARTPHONE PRESENTATION

Buttons	Functions
On/Off	<b>Long press:</b> Turn On/Off the smartphone. <b>Short press:</b> lock the screen.
Home 	Back to the home screen, open the list of recent applications (holding the button).
Menu 	Display menus of options available on the active application.
Retour 	Return to the previous screen. Close the keyboard on the screen.
VOLUME + / -	Return to the previous screen. Increase or decrease the volume of the call, ringtone, music, games and other audio functions.

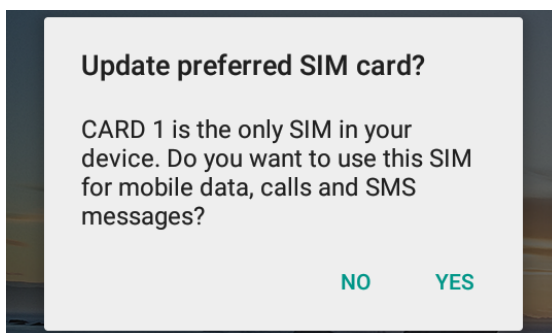

## SIM CARD MANAGEMENT

When you turn on your phone for the first time, information about the SIM card(s) are displayed, you are prompted to change the parameters to the call, message and internet connection. The **SIM1** card is configured as default **SIM** for the connection of the data.

If you are satisfied with the default settings, press "**Close**". Otherwise, press "**Change**", on the management SIM menu, you can:

- Customize SIM card information "**SIM management**". The background colour is used to differentiate the two SIM cards.
- Set the default **SIM** card\* for voice call, video call, SMS/MMS and data connection for internet.

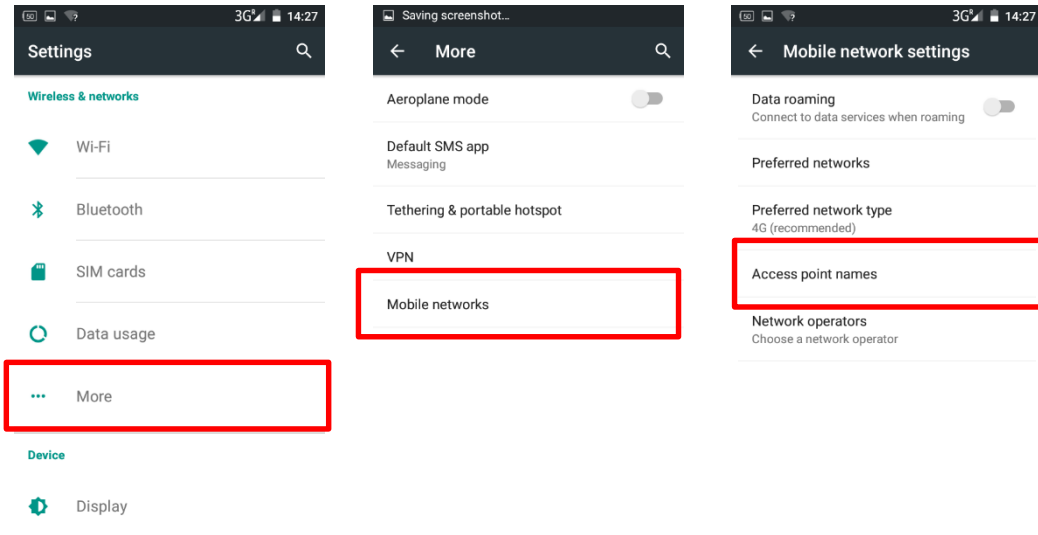

\* You can choose the **SIM** card for an action, for example, before you make a call or send an SMS/MMS.

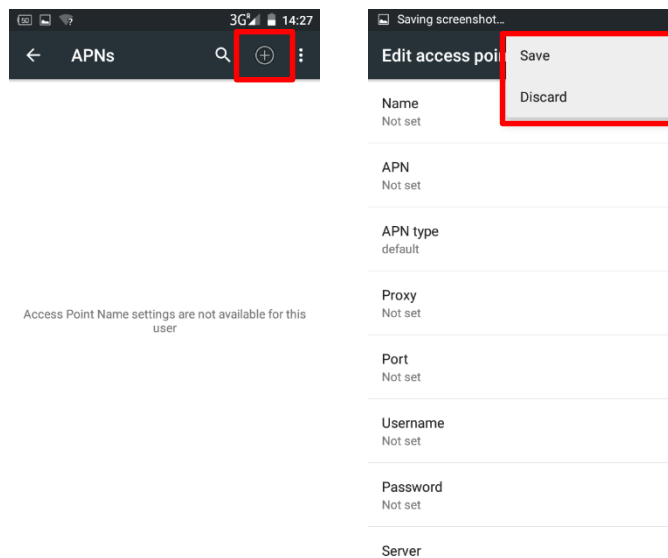

## **APN CONFIGURATION (ACCESS POINT NAME)**

If your operator is not on the list, or the list is empty, check with your operator to manually configure the APN.

To do so, press "**Applications**"  button, then select "**System settings**" option. Select "**More...**", "**Mobile networks**" then "**Access Point Names**".

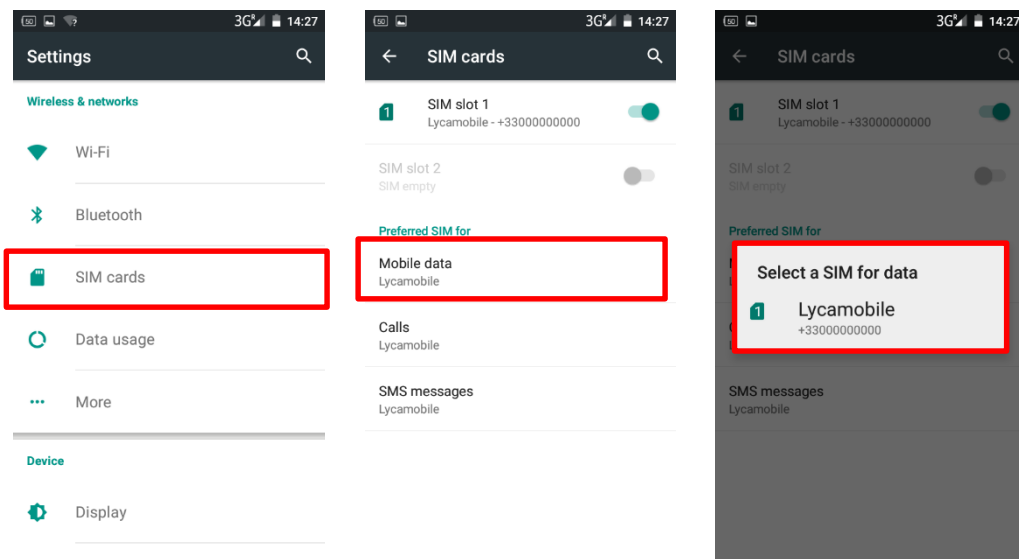

Press "+". Input all information about the access point name delivered by your operator. Press again the "**MENU**" button and select "**Save**". Come back to previous menu and select the inputted access point name (**APN**).

### **3G CONNECTION**

If you have two SIM cards inserted, only a SIM1 card can be activated for 3G service, it is advisable to activate the SIM1 for optimal performance. If you want to change the SIM, go to **Settings > SIM management > data connection** and select the number corresponding to your SIM1 card.

### **ROAMING**

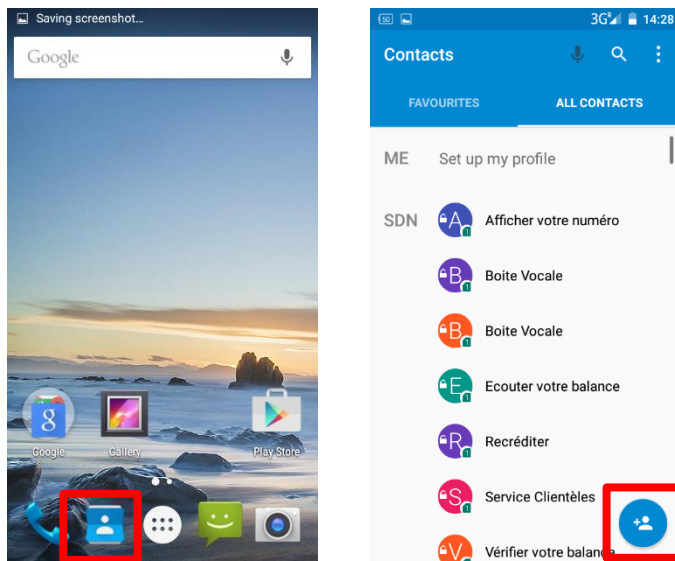

Note that for the SIM cards while roaming, you must enable its **"data roaming"** in the **Settings > SIM management > Roaming** then select the number corresponding to your SIM1 card. Otherwise the internet connection will be disabled by default.

## ADD A CONTACT

To add a contact, select  icon on the main page.

- ...

## GUARANTEE CONDITIONS

**STOREX**'s available guarantee is valid for 2 year for your product and 3 months for its accessories (power supply, USB cables...).

**STOREX** guarantees your products against any manufacturing or assembling faults. This guarantee only applies to the first purchase of your product by the end user and is not transferable if the device is resold. This warranty does not cover any incompatibilities found by end user apart from recommendations specified on the packaging, or any other incompatibility generated by other hardware or software on the computer that is connected to the your product.

Proof of purchase must be presented to our services to apply **STOREX** guarantee.

The guarantee doesn't cover failures or defects induced by non-compliance to this manual's instructions, neglect, alteration, improper installation or maintenance, reparation or alteration not authorized by **STOREX**, improper tests, accident or external factor such as (not exhaustive) excessive heat or dampness, power failures or bad installation / uninstalling of your product.

The only contractual obligation endorsed by **STOREX** pertains to the reparation or replacement of a defective product. In no case, **STOREX** cannot be held responsible for any loss of data, or its consequences induced by operational fault or a product failure. In any case, **STOREX** won't be bound to any financial responsibility for any amount exceeding the value of the product purchased by the end user.

This guarantee is well defined and cannot be modified, decreased or increased without written consent from **STOREX**. In addition, **STOREX** cannot be held responsible for any technical advice or service provided in relation to your product.

For any request not covered by this guarantee, please contact **STOREX** support or log on to [www.e-storex.com](http://www.e-storex.com) to order accessories.

You are not the grantee of this current warranty. This warranty covers only your product and is governed by French law.

**Note:**

**STOREX**™ reserves the right to modify the user manual without prior notice according to the product's evolutions. You can find the latest version of the manual on our website: <http://www.storex.eu>

## STOREX WEBSITE

Please visit our website: <http://www.storex.fr>.

Select "**Smartphone**" category. You can download the latest full version of the manual as well as software updates.
